

People's Republic of China

General Description

- Medium to large structural steel, plate-work and vessel facility.
- 50% of production is for western project work
- 2008 completed significant projects for Brazil, Russia, Tunisia, Mongolia and India

Location

Shanghai, Peoples Republic of China

Port

Within 20 km's of a major Shanghai port

General Statistics

Land Area: 120,000m²

Workshop Area: 52,000m²

Production Capacity: 100,000 TPa

Cranes (External): 80T Gantries

Employees: 650

Quality Systems

- ISO9001 : 2000
- ISO14001 : 2004

Safety Systems

- GB/T 28001 - 2001

Examples of Project Experience List

Gerdau Acominas Brazil Blast Furnace/Coke oven

NLMK Russia No7 Blast Furnace GCP System

Mitsubishi Electric Mongolia Power Plant Project.

TATA Steel India Blast Furnace

Production Equipment

Pre-Fabricated Welding Machine

Profile Plasma Cutter

H-Beam Straightening Machine

Face Milling Machine

Digital Controlled Drilling Machine

Pipe Cutter
